The all new Master Blaster by PMI is an industrial strength portable evaporative air cooler designed to make cooling large areas a breeze.

**Anywhere You Need It**
Master Blaster is ideal for Factories, Greenhouses, Outdoor Activities and under tent events, Weddings, Backyard Parties, In the Garage, On the patio, Automotive workshops and just about anywhere you need more cooling.

**Two Sizes**
The Master Blaster is available in two sizes to fit your needs. The MB36 is designed to push more air and cool indoor or outdoor spaces making it ideal for outdoor events, large factories and work spaces. The smaller but still powerful MB24 can be placed just about anywhere and is perfect for the patio, garage or even under the event tents at your next party.

**Factories**
Area cooling for assembly lines, fulfillment facilities, warehouses, manufacturing plants, any industrial facility setting.

**Automotive**
Workshops, garages, driveways, rental car returns, mechanic shops etc...

- **No Assembly Required**
  Ready to go right out of the box
- **Quiet Operation**
  The fan blades are engineered to produce more air with less noise.
- **2-Speed Motor**
  Simple two-speed switch with separate pump switch.
- **Rigid Media**
  8” thick rigid media cooling pads for efficient cooling and long-lasting performance.
