# Be the Life of the Party

These powerful evaporative air coolers will keep you and your party guests comfortable out on the patio during the long summer months. Features include enough cooling power to chill up to 1,000 sq. ft., attractive and durable two-tone finish with easy to control, 2-speed motor.

To really get the party going, the PP5000 includes a large integrated luxury ice chest that will keep all your favorite beverages cold and ready to enjoy.

With the Patio Pal and MAC line of evaporative coolers, you can be the life of the party while your guests stay cool and comfortable.

PP5000

## PATIO PAL

### **PP5000** *Evaporative Air Cooler with Integrated Ice Chest*

When the party heats up, keep it totally cool with the Patio Pal Cooler and its integrated, luxurious ice chest.

*Now, that's cool!*

#### **Evaporative Cooler Features**

- 1000 sq. ft. cooling capacity
- 1/2 HP, 120V., 2-speed motor with simple switch controls
- Efficient rigid media for better cooling
- Included garden hose adapter for extended run time
- 5 Heavy duty casters for mobility - 2 locking
- All steel construction with Exclusive Peblar XT finish is durable & attractive.
- Includes Garden Hose adapter

#### **Integrated Party Features**

- Heavy-duty, 154 can capacity insulated ice chest
- Gas spring easy-lift lid with soft-close feature.
- Sturdy handles for easy mobility with drop in cutting boards
- Integrated bottle opener conveniently located in the lid of the cooler with magnetized bottle cap catcher
- Ice chest can drain down to the evaporative air cooler when desired with the convenient drain line.

## MAC5000 *Mobile Evaporative Air Cooler*

For those additional areas where you need more cooling the MAC5000 cooler can provide the same cooling capacity of the larger Patio Pal but without the ice chest. The artful design and finish will match most decors for comfortable elegance.

During those warm, dry, summer days and nights these evaporative coolers are capable of dropping the air temperature up to 30 degrees. So as those temps begin to climb stay cool and comfortable with inviting temperatures all summer long.

### Features

- Can cool up to 1000 sq. ft.
- Hi-Lo speed air control
- Heavy duty casters for mobility  
2 locking
- Includes Garden Hose adapter

Available in Copper Vein or Silver Hammertone and with or without heat.

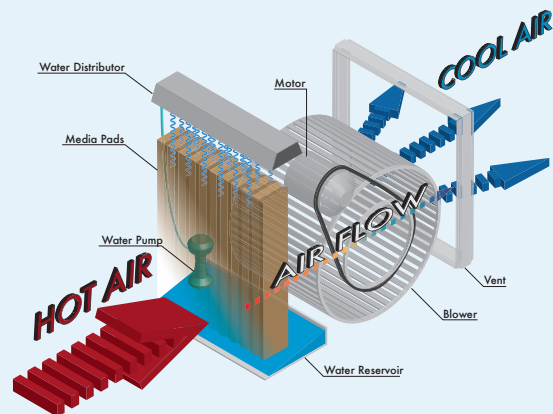

MAC5000

# What is Evaporative Cooling?

Nature's most efficient means of cooling is through the evaporation of water. Evaporative cooling works on the principle of heat absorption by moisture evaporation. The evaporative cooler draws exterior air into special pads soaked with water, where the air is cooled by evaporation, then circulated into your space.

Remember the chill of wind hitting your face after swimming on a hot day? Well, that's evaporative cooling!

Model	PP5000	MAC5000 / MAC5100
Cooling Capacity	up to 1000 sq. ft.	
Motor	1/2 HP, 120V., 2 Spd., 9 Amp
