Nthdegree by AEROCOOL

Universal Digital Thermostat Controller

Living Life In Comfort

2 Piece Kit Includes:
- Wall mounted thermostat

The Nthdegree™ Digital Thermostat...

For whole house energy efficient evaporative cooling control. This electronic thermostat control package is designed to operate any whole house cooler. Just set your comfort level and relax, the Nthdegree™ will cycle the fan between low, high or off to maintain the temperature using the least amount of energy possible... Just set temperature, and let Nthdegree™ take care of the rest.

Model: NDS

Take Control of Your Cooling Needs

UL Listed
Meets Underwriters Laboratory standards for safety.

Two Piece Kit
Contemporary electronic wall thermostat for inside control and a rain tight NEMA control box which mounts outside the cooler.

Works with ANY Cooler
Automatic control for what ever cooler you own, whether it's operating at 115V or 230V and will work with any horsepower motor up to 1HP.

Easy to install
Easy instructions guide the simple installation of the individual components.

Pre-Wet Cycle
Upon startup there is a delay while the pump wets out the pads before the blower fan engages, thus immediately delivering cool air.

Energy Saver
The stat operates the cooler only when needed by automatically turning the cooler on or off and selecting a fan speed that uses the least amount of energy that satisfies the requirement.
